

StudyJesus.com presents *A Mother's Legacy*

Dr. James E. "Gene" Priest was a beloved preacher and teacher of God's Holy Word – a Bible scholar in the truest sense of the word. Prior to his death, he donated all his writings to StudyJesus.com. We discovered a small notebook of drawings by the mother of his life-long friend, Dr. William Harrison. Also in that notebook was a personal letter from Dr. Harrison. Here is part of that letter:

Dear Gene,

Before mother died, she had written many letters of encouragement during those years during which I served the Lord on foreign soil. Sometimes she would include with her letter a poem or drawing – always relating to God's Word. As you know, mom and dad were not rich by the world's standard, but they both left a loving, spiritual legacy. This small collection of mother's drawings represents a portion of her legacy and it's dedicated to you primarily because mother and dad greatly loved and deeply respected you for taking me, as a youngster, into you're your heart and spending countless hours instilling within me the knowledge of how and the desire to study the Holy Word of God.

We at StudyJesus.com hope that one preacher, teacher and/or student of God's Holy Word may find a use for one or all of these drawings and be encouraged in Christ. Perhaps *A MOTHER'S LEGACY* can be a part of your legacy, too.
