

StudyJesus.com presents Part I of Biblical Research – *God's Fullness*

In the first three pillars of A Religion Library, “God’s Fullness”, we offered a series of seminar-type lessons on God the Father, God the Son and God the Spirit – all of which were prepared from this comprehensive, in-depth study of the reality and nature of God.

We now offer Dr. Priest’s complete graduate level book, in which he probes the Biblical and theological perspectives of the Godhead in a way that is easily understood by both layperson and specialist. The saga of God’s relationship with man unfolds as a wondrous story of God’s redemptive love and offer of reconciliation to all humanity. A major theme is that one’s view of God will ultimately shape one’s religion and life.

Those who love God never tire of learning more about the One who exceeds all understanding. This is true even though every attempt to more fully comprehend God becomes a reminder that God looms so far above us that our intellectualism is infantile before Him. Over a century ago the English preacher C.H. Spurgeon made an observation that still has power: “He who often thinks of God will have a larger mind than the man who simply plods around this narrow globe.” To examine the nature of God as revealed in God the Father, God the Son and God the Spirit is to expand the mind. As one might examine a multifaceted diamond, we seek to examine the Biblical teaching about God from different angles for the light that each reflects.
